C, HTML, CSS, JavaScript, SQL, C#, ASP.NET, Node.js, Express, MongoDB

PROJECTS

Prosper IT Consulting Developer internship (Blue Ribbons) [github](#)

- MVC architecture in MS Visual Studio.
- Persistent data from form inputs using knockout.js

Million Dollar Foosball Club website [github](#)

- Static website built for Portland, OR foosball club.
- Responsive site with home-cooked photo sliders and multi-part sticky header.

Yelp Clone for campsites [github](#)

- User reviews and comments using Passport auth in the Express framework.
- Db models using MongoDB.

WORK EXPERIENCE

Homebuilder/Carpentry Subcontractor - *May/2013 - Dec/2017* - Whitefish, MT

Learned the priceless concepts of building strong foundations and the sometimes undervalued importance of constant maintenance and clean installation in project oriented work.

EDUCATION

2018 Tech Academy - *Dec/2017 – May/2018* – Portland, OR

Learned computer fundamentals, git, SQL databases, coding in several web-based languages and had the opportunity to intern on a live project for an in house consulting firm.

2008 B.Sc. in Air Traffic Control, University of North Dakota

Developed a technical skillset related to aviation and collaborated with faculty to develop air traffic simulation designs.
